REPORT OF BUILDING INSPECTOR

The year 1966 closed with Chesterfield showing an upward trend for new homes. Thirty-seven permits were issued. Thirteen of these were for new resident homes; nine for new summer cottages. Three garage permits were issued. The balance were for alterations. There were no trailer permits issued.

Our new ordinance on control of signs on the highways was immediately violated, and continued to be several times throughout the year. Most of the offenders complied by removing their signs. However, it was necessary to have four removed by the aid of legal procedure. At the present writing all violations of signs have been taken care of to the best of our knowledge.

We have two violations of the zoning ordinance in other fields in legal procedure at this time.

To all of you who so gladly wished to comply with our zoning ordinance, and did all in your power to do so, I wish to say thank you.

Respectfully submitted,

GEORGE E. JOSLIN

REPORT OF THE CHESTERFIELD LIBRARY

1966 at the Chesterfield Library was a year of finding my way, as new librarian. I have enjoyed making new friends and coming to know others better. Circulation for the year was as follows: Adult, fiction—5280. Non-fiction, 769. Childrens, 4336. Total 8088.

An exchange of books was carried on with West Chesterfield and Spofford as in past years. 112 adult books were purchased and 87 childrens books were purchased. The state Bookmobile is a great help to our library. They made four calls during the year and we used 1885 of their books. 48 requests for books by mail were sent to the State Library. We made use of the books with large print this year.

We appreciate the people who have given books and find them an addition to our shelves.

It is difficult to know exactly how many patrons we are serving. We have worked very closely with the schools and have found the teachers very grateful for this service. Overdue and lost books are a problem. Books that are lost have to be replaced from library funds. If you have an overdue book (no matter how many years overdue) won't you please return it?

Respectfully submitted,

EDITH DARLING, *Librarian*

SUPERINTENDENT'S REPORT

TO THE CHESTERFIELD SCHOOL DISTRICT

To the Citizens of Chesterfield:

The Chesterfield Elementary School began the school year under the capable direction of Mr. John Goodwin, the new principal, and several experienced teachers who have been with us for a year or more. These teachers are Mrs. Regis Lysitt, grade 1; Mrs. Carolyn Scruton, grade 2; Mrs. Eleanor Fuller, grade 3; Miss Diane Parks, grade 4; Mrs. Dorothy Dunn, grade 5; and Mr. Martin Fitzgerald, grade 6.

To replace the teachers who left at the end of the school year we were fortunate to hire Miss Ruth Kupfer, grade 1; Miss Brenda Chickering, grade 2; Mrs. Kathleen Cody, grade 4; Mr. Randall Locke, grade 5; Mr. Ronald Barnett, grade 6; and Mrs. Blanche Brown, grade 8. Mrs. Audrey Ericson was hired as a substitute to replace Mr. Lawrence Jackson.

Needless to say the past year was a most difficult one to find suitable replacements. With the tremendous teacher shortage and the late summer release of two teachers, a great deal of time was required to find individuals, to say nothing of finding individuals fully certified. However, as of the mid-year, we have a full complement of teachers in the school.

Water Survey

Article 5 of the 1966 school warrant granted the district \$800 to conduct a water survey for purposes of finding water for the school. This survey was conducted during the summer and fall of 1966 under the direction of Dr. Charles Ratté, Water Consultant, from Brattleboro, Vermont. Several test holes have been made in some of the suggested areas. However, we have not as of this time found water.

The survey, which had to be terminated during the late fall, will be continued this spring and brought to a conclusion.

Union Reorganization

Early in the year Mr. Newell Paire, Deputy Commissioner of Education, informed the board and the administration of the new union reorganization planned for the 1967-68 school year. As part of the reorganization Chesterfield as well as Westmoreland, Nelson, Harrisville, and Marlborough will be added to the Keene School District to form the new Supervisory Union #29 under Mr. John Day, Superintendent of Schools. This change will become effective on July 1, 1967.

Transportation

The school board asked for bids to transport its students to the Chesterfield Elementary School and the Keene High School for a period of three years with a three option subject to negotiation. The bid was awarded to the Cheshire Transportation Company of Keene at a figure of \$18,990 plus \$300 for two feeder routes. Included in the bid but not as part of the \$18,990 was an option for a 3rd late trip from Keene for students wishing to participate in sports or other school activities. The use of such an option was surveyed with those answering favoring such a trip late in the day.

Proposed Building Plans

As a result of funds made available at our last district meeting, Mr. John Holbrook of Keene has drawn up several proposals to add classrooms to the Chesterfield School to meet the anticipated growth for the 1967-68 school year. These plans have now been laid aside for at least another year due to falling enrollments and a much smaller anticipated first grade.

Present plans anticipated a first grade of 29 students which is hardly large enough to warrant division but is substantially great enough to justify a teacher-aid to work with the first grade teacher.

The same situation will face next year's second grade.

With the first and second grades as single units, there will no longer be a need for a classroom in the auditorium for the 1967-68 school year. However, some consideration will have to be given another year for future expansion and growth. Should, however, the population continue to decline, it is very possible Chesterfield could continue its program for two years without being forced once again to use the auditorium as a classroom.

The 1968-69 school year will absolutely be the last year Chesterfield will be able to continue without some new construction of some sort.

Title II

The Supervisory Union No. 60 has completed its 1965-66 Title II project. The books and materials purchased with the funds made available are now in the various schools and being used by the students.

Tuition

The final tuition figures for Keene and Brattleboro are \$660 \$926 respectively. What is readily apparent to all of us is that there is a difference of \$266 for each student between Keene

and Brattleboro systems. With the junior and senior year enrollment (No. 25) next year in Brattleboro, this means we must pay an additional \$6,650 over and beyond what it would cost us to educate these same children in Keene.

	Tuition		Students

 Robert Bellavance

CHESTERFIELD SCHOOL LUNCH PROGRAM REPORT

July 1, 1965 to June 30, 1966

The hot Lunch Program opened September 13, 1965, with Mrs. Louise Scharles as Manager and Mrs. Elli Herrick as her assistant. Mrs. Herrick resigned at the end of the School year and Mrs. Marion Berry was hired as Assistant.

The reimbursement rate from Federal Funds remained at 4¢ for each Type A meal served to Children.

From the Government we received Surplus Commodities, which made it possible to keep up the rate of 26¢ a meal until March 1966. However at the beginning of 1966 Commodities were drastically reduced by the Government, which made it necessary to buy larger quantities of food at the market. This situation made it impossible to keep up the old price of 26¢ a meal and the School board decided to raise the price of School Lunches to 30¢ for Children and 35¢ for Adults, beginning April 1966.

Under the Special Milk Program, we received 4¢ reimbursement for each $\frac{1}{2}$ Pint of milk served.

Each day we served about 225 balanced meals.

Menus of the School Lunch Program are made up in advance for the entire month and copies are given to each child and teacher; thus the parents know what the children are eating each day.

Thanksgiving Day and Chirstmas, Turkey Dinners with all the trimmings were served with extra help.

The Lunch Program was managed without financial help from our township.

Our Principal Mr. Robert Bellevance and his staff were always helpful supporting our program. I wist to thank them all and also Mrs. Elli Herrick, my assistant, for helping to make the Lunch Program a success.

Respectfully submitted,
Mrs. Louise Scharles

Diseases, and those offered are: Diptheria, Whooping Cough, Tetanus, Oral (Sabin) Polio and Small Pox vaccinations. This year the clinics were held March 24, 1966 and May 19, 1966.

Flu vaccine was once again offered to students whose parents wished them to receive it. There was, however, a small charge asked to cover the cost of the vaccine which had to be purchased. Students not having had Flu vaccine previously were given a second Flu shot, therefore two clinics were conducted.

PRINCIPAL'S REPORT

To the Citizens of Chesterfield:

On September 7, 1966, the Chesterfield Central School opened with an enrollment of 295 students, as compared with 309 in September of 1965. We reached a high of 302 students and are presently at 290. There is little doubt in my mind that the figure will be above 300 by the end of this school year.

This year we are faced with the same problems, as far as facilities are concerned, that were present last year. Our auditorium is being used as a classroom. This of course limits the usefulness of the auditorium for educational assemblies, play rehearsals, physical education, testing, or adequate lunchroom space. A classroom in the auditorium hampers the education of the children because naturally it cannot offer the advantages of a of a classroom. We have tried to minimize the undesirable effects (noise, interruption, limited blackboard space, lack of bulletin board space and other advantages that a classroom offers) by having students from grades six, seven, and eight share this classroom.

Title I

The Title I project under the Federal Act of 1965 is being continued with some modifications, the same as last year. Mrs. Dorris Parker is working on a half day basis with twenty children in grades one through three. She works with the children in groups of not more than five for a period of $\frac{1}{2}$ hour each day. The subject areas covered are reading, phonics, and arithmetic.

Children involved in this special class, who have not been tested during the previous year, are being tested by Dr. Shankman from Keene State College. This will enable us to better understand each child and his needs. We will then be in a

position to purchase special material and work the children at their particular level.

This class must, by necessity, meet in an improvised classroom that was formerly part of the custodians' supply room. Despite this, it is felt that the program is progressing very well and should help the children involved find greater success in their school work.

Faculty

Again we are faced with the similar situation that has existed during the past years. With a staff of 13 teachers, we have seven new teachers, all except one who does not have prior experience. However, we are fortunate to find capable replacements through the efforts of Mr. Keach and Mr. Bellavance.

The following teachers are new to the school this year: Miss Ruth Kupfer replaced Mrs. Jobin in grade 1, Miss Brenda Chickering replaced Miss Kovacs in grade 2, Mrs. Kathleen Cody replaced Mrs. Dunn in grade 4, Mr. Randall Locke replaced Mrs. Blastos in grade 5, Mr. Ronald Barnett replaced Mr. Jobin in grade 6, and Mrs. Blanche Brown replaced Mrs. Hurst in grade 8. In grade 7 we have been unfortunate in that we had to replace Mr. Jackson with two substitutes, Mrs. Audrey Ericson and Mr. Robert Raymond, but, hopefully, this situation will be corrected shortly.

We are fortunate in having Mrs. Regis Lysitt in grade 1, Mrs. Carolyn Scruton in grade 2, Mrs. Eleanor Fuller in grade 3, Miss Diane Parks in grade 4, Mrs. Dorothy Dunn in grade 5 and Mr. Martin Fitzgerald in grade 6 return for another year.

WHAT ARE OUR NEEDS FOR THE FUTURS?

Education today is much more complex than it was just a few short years ago. We are living in a period of time when great advances have been made in all phases of life. To enable our students to cope with the problems that they will encounter we need to put greater resources into our educational program. This would include such things as adequate classrooms, kitchen space, lunchroom space, playground facilities, and an adequate library.

Our curriculum needs to be strengthened by improving the subject areas that we have and by adding art and a guidance program. Our music and physical education programs need to be expanded.

The most important phase of our educational program is an efficient and experienced staff. A good teaching staff is more important than the facilities or the materials that are necessary

to operate a school. A school can be no better than its teachers. Every effort should be made to secure the best possible teachers and to keep them.

SUMMARY

Despite the shortcomings that I have mentioned the total school program is functioning as well as could be expected.

We do have some advantages. We have been fortunate in replacing teachers who have left with good, although inexperienced teachers. We are extremely fortunate in having classrooms that are not overcrowded. This enables the teachers to give more individual attention which is so very important. Our first grades are small, which may concern some people, but these children are fortunate in that they receive from their teacher the attention that is especially important to get them off to a good start in their school career. More time can be spent with them and therefore the teachers can be more thorough in covering the materials that will be the foundation of their learning.

REPORT OF MONADNOCK CHILDREN'S SPECIAL SERVICES CENTER

Title III

This is a Center where school children may go to receive special help with school problems. It should be made clear at once that this Center is operated by your school district. Actually five supervisory unions in this part of New Hampshire worked together in planning the project and the plan was approved, and is financed by the United States Office of Education Act of 1965, or PACE program. It will serve as a model of what can be done to help school children with their problems, be they physical handicaps, learning problems, or the difficulties which arise when young people are upset and confused.

All in all, then the Center provides the type of help which local school districts could not afford on their own. Through the Center, it is possible to pool information on a pupil; his physical condition, his abilities and weak points. Having acquired a rather complete picture of the pupil, all concerned can sit down together to see that there is understanding and co-operation which is necessary to help the child.

The Center has received 150 referrals for help from the five school systems involved (Fall Mountain, Keene, Monadnock

Regional, Peterborough and Winchester) since our opening October 19, 1966. Some cases are completed, and others are in various stages of procedure.

While there are many ways of referring a child to the Center, we will list the major ones: the school principal, school nurse, guidance counselor, the classroom teacher, the family doctor, or parents who feel children need help. There is no charge for any of the services provided at the Center, but parents are encouraged to cooperate in many ways, such as transportation to the Center when the child may be scheduled for any one of many evaluations.

As stated above, this is a pilot project, or a new idea, and is the only Center of its kind in the Eastern United States, and will require the support and interest of all involved, in order to do the very best possible job of helping children, which is the sole reason the Center has been established.

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Fire records are made by people—those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966.)

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres—a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A.M. and 5:00 P.M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.
2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important - Instruct your children that matches are not play things.

TRULY—ONLY YOU CAN PREVENT FOREST FIRES
